PROFESSIONAL PROFILE

I'm Patchara, a fullstack developer with a Bachelor's degree in Applied Computer Science – Multimedia from KMUTT. I have internship experience in building e-commerce web applications and the ability to develop complete solutions, from designing user interfaces to implementing backend systems. I'm passionate about modern web technologies and cloud infrastructure, and I'm always eager to learn and contribute to meaningful projects.

CORE SKILL

- HTML5, CSS3, JavaScript
- React.js, Next.js
- Tailwind CSS , Bootstrap , Chakra UI
- GitHub
- Postman
- Node.js

SOFT SKILL

- Fast learner with a growth mindset
- Detail-oriented and committed to deadlines
- Strong communication across technical & non-technical members

PROJECTS

- Taskly – Task Management for Students: A web app for students to create projects, collaborate with teammates, track tasks, and receive notifications.
- Weather App: Displays current weather data based on user input, focusing on API usage and frontend development
- Todo List: A basic todo list that stores tasks in localStorage
- Image Uploader (Backend Service): A service for uploading images to AWS S3 and returning a public access link.

WORK EXPERIENCE

June 2024 - August 2024   CLOUD NC CO.   Internship Frontend Developer

Outline

Developed an E-commerce website for selling books during the internship. Responsible for implementing the frontend of both desktop and mobile versions based on UI designs. Integrated RESTful APIs from the backend to display product listings

Key responsibilities
- Designed and structured page layouts for various sections of the website.
- Collaborated with the UX/UI team to resolve design and usability issues.
- Developed responsive product pages for both desktop and mobile platforms.
- Tested APIs and integrated data from backend services into the frontend.

EDUCATION

- King Mongkut's University of Technology Thonburi | Grade 3.34 | 2021-2025
- Bangpakok Wittayakom School | Grade 2.27 | 2014-2020
